WILSON CALLS CABINET MEETING

Abdication of Czar Is Not Completely Effective As Yet

Indications That All The People Are With Revolutionists And That Nicholas Will Not Return

MANY OFFICIALS HAVE BEEN EXECUTED

London, March 16.—Czar Nicholas' abdication of the throne of Russia has not been effected. Chancellor of the Exchequer announced in the house of commons today.

Bonar Law read a telegram from the British ambassador at Petrograd. It stated that while the Czar's abdication and the appointment of Grand Duke Michael as regent has been decided upon by the executive committee of the Duma such steps "had not as yet been effected." The message concluded that the Czar's whereabouts are unknown.

Success of Revolution Forecasted

Petrograd, March 16.—Complete success of the revolutionists in Russia was forecasted today when nobles joined with the revolutionists and sent resolutions to the officials. The populace and army will brook no objection to their control.

Baron Staffelberg fired upon the troops in the strete and his house was immediately stormed. He was taken out and excuted.

Count Frederick aid-de-camp to the Czar remained hidden in his home. He was later taken a prisoner.

Countess Klein Michael known for her pro-German activities was taken from her hiding place and made a prisoner.

General Sukaomlinoff former minister of war was arrested and immediately executed.

Krenshiz was arrested and one of the Duma leaders appealed to the populace and his life was spared. He was placed in Pauris prison where the nobles are imprisoned.

Grand Duke Nicholas will take charge of the Russian army. The people trust him and believe he will lead the Russian army in whole hearted sympathy with the entente.

The Grand Duke who was in command of the army of the Caucausus telephoned President Rogeniko of the Duma that he and Chief of Staff Alexiess advised the Czar to abdicate. Such a step would save Russia and bring the war to a successful close.

The Czar today is at Pfkoff and the Czarina is at Posrke Sel Palace according to latest reports. Neither are in danger.

Whitman's Decision In Darcy Case Dooms Boxing Game In New York

Governor Did Not Sanction the Idea of Foreigners Taking Home Good Yankee Coin

By H. C. Hamilton
(By United Press)

New York, March 16.—Any one might have had that boxing wasn't on its last legs and tottering unsteadily to its corner for the final round sacuid be thoroughly dissipated by Governor Whitman's action in New York when he refused to permit Les Darcy to appear in public bouts.

Whether it seeps into other states and knock the game clear out the ring is something else and remains for time to tell.

Whitman was severely criticised in many quarters when he took his stand against Darcy, while in other spots he was highly commended.

Critics declared he should not have shown discrimination against Darcy, pointing out that Freddie Walsh, Tom Cowler, Ted Lewis and other are allowed to box without interference. They are just as much at fault as is Darcy, for they are Englishmen, whereas Darcy is an Australian, and of Irish descent

Whitman's action seems to have been taken because Darcy had neglected his duty to come to America and get some easy money The spectacle of a foreigner coming here and separating New Yorkers from their cash because they were easy marks evidently didn't appeal to governor. The other English boxers already were in this country when war was declared.

Darcy made a frightful mistake when he refused to talk business with Mike Gibbons and promoters from the Middle West Then, when he listened to bad advice and separated himself from Tim O'Sullivan he made another bad step Each of these actions caused adverse comment and the people began to kick.

Governor Whitman's attention naturally was called to what was going on. He couldn't have helped seeing it if he read the newspapers Darcy was maligned by any means in the said about him. If Governor Whitman got the wrong impression it's his own fault.

The money grubbers among the boxers are fast choking the wind out of the goose that lays the golden eggs. It wouldn't be at all surprising if every boxing law in the country was wiped off the books within two or three years.

NEW EXPRESS MESSENGER

S. A. Row, Jr., of this place, who has been employed in the American Express company's office at DuBois has been promoted to the position of express messenger on the New York Central railroad. His run is between Clearfield and Heilwood, Pa, and he made his first trip yesterday, and is much pleased with his new position.

EXPECT OVERTHROW OF GREECE AND TURKEY RULERS

Washington, March 16.—That the Russian revolution and overthrow by the Duma of the Russian bureaucracy will be immediately folowed by strong pressure by the entente allies on Greece and possibly dethrone King Constantine of Greece is indicated in official dispatches received here from representatives of this government abroad. Reports from the same sources give hints indicating that the end of the Turkish empire is emminent and that Turkey will be deprived of any territorial holding in Europe.

BROTHERHOOD OF TRINITY CHURCH AT BANQUET

Rev. Dr. Bender Who Will Soon Leave Pastorate, Was Guest Of Honor at Function

MANY FINE ADDRESSES MADE

The Brotherhood of the Trinity Methodist Episcopal Church of Clearfield met last night in the Sunday school room of the church and partook of the delicacies prepared by the ladies of the church. The affair was by far the greatest social meeting ever undertaken by the organization and was a hughe success. Rev. Bender, who has announced his intention of leaving this pastorate was the guest of honor and many glowing tributes were paid him by the men who had places on the program. The church choir was present as guests and treated the banqueters to musical selections which were very much enjoyed

After dinner had been served Toastmaster Rev. McCurdy called the assemblage to order and in his usual witty manner introduced as the first speaker of the evening Dr. Bender the beloved leader of the Methodists of Clearfield Dr. Bender was much affected by the honor shown him and thanked his co-workers for their support of his work in Clearfield Dr. Bender was followed by Hon Frank G. Harris, Rev. Peters of the Eleventh street church, Rev. Allenbach, of the Lutheran church, Rev. Brown and William Boyce who is Past President of the Trinity Brotherhood. The remarks of Mr. Boyce was very impressive. He spoke directly to Dr. Bender and gave him all the credit for bringing to the men of the Brotherhood a new lease on life, a new vision of hope and a better, clearer understanding of the joys of a Christian life.

SPARED EXPENSE OF TRIAL

Clearfield county will be spared the expense of the trial and possible incarceration of John Lapierre, the "dope artist" who played so much havoc with a train load of Overland automobiles on a B., R. & P. freight train, between Ridgway and DuBois one day last week.

Lapierre was arrested in the yards at DuBois, but as he had boarded the train at Ridgway, Railroad Claim Agent Nathan Kohut, who has charge of such matters for the B., R. & P. company, after his usual careful investigation discovered that the act of vandalism occurred in Elk county. Mr. Kohut found tire pumps, wreiches oil cans and other automobile accessories scattered along the track almost clear across Elk county and accordingly made information against Lapierre at Ridgway and coming to Clearfield this morning took his man out of the county jail and returned to the Elk county capital with him on the 11:44 train

SUITS BROUGHT

Suit was entered in the Prothonotary's office this morning against W. J. Lanich, Frank Pepe, B. F. Postlethwait, H. Heckman and Ella Conway by the county commissioners for balance due from Mr. Lanich who had been tax collector of Huston township for several years. Lanich failed to clean up his duplicates to the satisfaction of the county commissioners and the collector and the four bondsmen named are asked to make good the shortage.

Attorneys Pentz and Pentz on behalf of the A. J. Deer Co., asked for an execution against J. A. Maloney of DuBois, the amount claimed in the paper filed being $60 balance of purchase price for a coffee grinder purchased by Maloney from the Deer company.

BELGIAN SOLDIER TOBACCO FUND

The Big Store Crowded On Evening Of Opening

First Spring Opening of Season Brings Out Record Crowd

Leitzinger Bros.' annual spring opening attracted the usual large crowds last evening. The mamoth store was a "bower of beauty" from roof to cellar and about all the women in town were present during the evening to visit and admire everything on display.

The Guelich's orchestra was advantageously located on the second floor and the inspiring music lent a charm to the occasion which was greatly appreciated by each fair visitor. Every floor was filled all evening with Clearfield's fairest, dressed in their best, and altogether the Big Store presented a scene which did one's heart good to look at.

After a careful inspection of the latest delights to the feminine eye, the young folks, as though by common consent, gravitated to the front of the second floor and utilized the large section of that commodious quarter as an improvised ball room and saw to it that not a single dance tune was allowed to "waste its sweetness, etc."

The Big Store did itself proud on this occasion and the display, including the handsomely dressed show windows in the language of one fair visitor was "perefctly wonderful."

THE LOCAL STRIKE SITUATION

About 100 of the strike breakers imported into the New York Central yards here two weeks ago when the car repairers walked out through a difference with the company over wages, left last night for their home About sixty of them left over the Pennsylvania, seventeen over the B. R. & P. and the balance left via New York Central.

It is said another lot of strikebreakers will arrive here this evening in charge of Joseph Schultz, who left last night for New York for the purpose of rounding up the new crew.

Everything is quiet and extremely peaceful here. There are only about thirty men at work in the yards, while about all the men who walked out have secured employment elsewhere about town and are awaiting developments.

JOHN W. SMITH SERIOUSLY ILL

John W. Smith, the miller, was taken seriously ill at his South Second street home last evening and was hurried to the Clearfield hospital for medical treatment.

Word from the hospital is to the effect that while he rallied slightly this morning his condition is extremely critical. He is suffering with kidney trouble.

WILL MOVE HERE

George Shields, a former resident of this section, who had been in the hotel business at Bakerton, Pa., for the past couple of years, has disposed of his hotel and is in Clearfield looking for a house, it being his intention to move his family to this place in the near future.

Discuss Means of Handling The Situation Between Railroads And The Brotherhoods

President's Hands Are Tied So Far As Preventing Strikes Are Concerned Without Help of Congress

WILSON WILLING TO ACT AS MEDIATOR

By Robert J. Bender
(United Press Staff Correspondent)

Washington, March 16.—Facing the gravest situation in months President Wilson called his cabinet for a meeting at 2 to take a course of action in the threatened break between the railroads and their employes.

The President's hands it is admitted are tied inasmuch as being unable to take any drastic measures to avert the threatened strike.

He will make a patriotic appeal to both sides to make concessions in view of the grave international situation with the endeavor to prevent a tie-up of transportation.

He will also suggest mediation between the Brotherhood and the railroad representatives.

There is also a possibility of hastening the extra session of Congress if necessary in order to give the President power to bring government forces into play in handling the crisis.

The President, still weak from a protracted illness left his bed today for the first time in nine days.

IN MEMORY OF "OLD HICKORY"

Washington, D. C., March 15.—The high reverence in which the memory of Andrew Jackson is held is to be given expression throughout the country today by exercises commemorating the 150th anniversary of the birth of the famous old soldier and President. Many organizations of Democrats who look upon "Old Hickory" as their "patron saint," have arranged meetings and banquets in honor of the anniversary. Suitable commemoration of the day is also expected to take place in many of the cities and towns named in honor of the victor of New Orleans.

POULTRY DEALERS PASS THE BUCK

Des Moines, Ia., March 16.—"Not guilty" plead the poultry dealers to the allegation that they are responsible for the unduly high cost of the Sunday dinner. Someone else is reaping the biggest share of the profits from the present high prices. So say the members of the Iowa Poultry Dealers' association assembled here today in annual convention. And anyway, add the dealers, the price of poultry is no higher in comparison with the cost of other articles of food. And there you are!

ENCAMPMENT OF I. O. O. F. HELD BANQUET

Music Furnished By the West Side Sunday School Orchestra Led By Prof. Rockwell

SOLO BY MEDA SHAW FEATURE

The annual banquet of Encampment No. 232 I. O. O. F. held in Odd Fellows hall last evening was one of the most enjoyable occasions in the history of this admirable and progressive fraternal organization—and that is saying a great deal. When it comes down to staging affairs of this kind, Clearfield Odd Fellows run exceedingly true to name, and are "odd" in that no other organization can pull off any similar gathering with quite the degree of success and genuine enjoy- the "100 F." boys (with apologies t "[illegible]" boys (with apologies to O. O. B. Porter.)

Last night's affair was in the capable hands of a committee composed of Frank Weller, Ashley Fullington, and Donald Daugherty and they had every detail worked out to perfection; which was fully apparent in the manner in which each guest enjoyed the evening.

The members of the Encampment were accompanied by their wives and as the women prefer to do their talking in private and the men folks hadn't the nerve to attempt any get even measures, the gathering was entirely informal and no speechmaking was indulged in.

Elegant refreshments were served by the ladies of the Lutheran church, which fact relieves us of the necessity of saying anything further along this line, as all who have been fortunate enough to sit at the banquet board presided over by these good ladies realize exactly what the opening word of this paragraph means in this case.

The music for the evening was provided by the West Side M. E. Sunday school orchestra, under the direction of Prof. Charles E. Rockwell and the excellent music gained much praise A distinct and most pleasing feature of the musical program was two charming solos rendered by Miss Media Shaw, a member of the orchestra and one of Clearfield's most talented and accomplished soloists.

About 100 couples participated in the festivities and spent the evening in card playing and other games and amusements, and all present were loud in their praises of the good work of the committee in charge.

Pennsylvania Farmers Excelled In Every Crop But Potatoes

Pennsylvania Easily Outshines its Rivals in the Production of Buckwheat

In every major farm crop, excepting potatoes, the Pennsylvania farmers excelled the general average field to the acre obtained by the farmers of this country.

The United States figures of crop production show that the average yield of potatoes to the acre for 1916 was 80.4 bushels while the average shown by the figures of the Pennsylvania Department of Agriculture show an average yield in this state of but 70 bushels to an acre. The average last year was low for Pennsylvania but the average for the entire country was also reduced from 96.3 bushels to an acre in 1915.

Pennsylvania ranked third in the total production of potatoes and the 265,200 acres harvested represented 7.47 per cent of the total acreage of 3,500,000 devoted to potatoes. The yield represented 6.5 per cent. of the entire yield of the country.

It is in the raising of buckwheat that the Keystone state can shine. Although the year was a poor one for the buckwheat crop, Pennsylvania easily retained its place as first among the buckwheat growing states The 279,970 acres devoted to buckwheat represent 33.13 per cent. of the 845,000 acres planted to buckwheat in this country and yield represented 37.84 per cent. of the entire crop of the country. The average yield for an acre in the state was 16 bushels compared to 14 bushels for the entire country.

The Pennsylvania average of wheat to an acre was 16.8 bushels against a general average of 13.8 bushels The acreage of the state was 3.82 per cent of the total acreage of the country but the yield represented 5.20 per cent. of the total yield for this country, thus showing that over one twentieth of the wheat grown in the United States comes from Pennsylvania.

Pennsylvania farmers averaged 37 bushels to an acre for corn against the national yield of 24.4 bushels and the acreage devoted to corn in the state was 1.38 per cent of the total acreage. The total yield of the state represented 2.09 per cent. of the country's crop.

Almost ten per cent. of the rye grown in the United States comes from Pennsylvania and is raised on an average representing 9 per cent. of the total acreage The yield for the state per acre is 16.9 bushels as compared with the national average yield of 15.3 bushels to an acre.

The oats figures show that Pennsylvania devotes 2.53 per cent of the total acreage and that the crop represents 2.60 per cent. of the total crop. The state average yield per acre is 31 bushels to an acre against a yield of 30.1 bushels for the country.

The acreage for hay is 5.81 per cent. of the total and the yield is 5.83 per cent of the total yeild of the United States The state average yield is just a slight fraction above the country's average yield of 1.64 tons to an acre.

SIMILARITY

The Pro-German influence in Russia bears some semblance to the condition of affairs in our own nation. Our President has had advisors that were of the same stripe as those who brought about the revolution in Russia. Bryan with his peace propoganda and Ford with his silly preachings were forces that hindered for some time the business of preparing to meet what we have found to be the inevitable. Other advisors of the President have without a doubt been Pro-German in sympathy and done everything in their power to prevent a break with the Teutons. Had the President kept Bryan in his cabinet there is no doubt but that the people of the United States would have demanded action instead of peace pleas.

A GOOD RECORD

The State tabulation for Clearfield county shows that fourteen fires burned within the county forests between April 22 and December 8th. About 3,500 acres of forest land were burned over.

The State says the largest single fire burned over 3,000 acres in Lawrence township December 7th and 8th. Had it not been for this one large fire, the area burned over would have been less than 500 acres, a record not approached by any other county in the state with a forest area equally large To make it worse, the 3,000 acre fire was started by hunters, who, of all frequenters of the woods, should know better.

Clearfield county's local foresters, rangers and fire wardens evidently did their duty, for eleven of the fourteen fires were extinguished before they had covered twenty-five acres.

RUSSIA

From a slumbering nation of millions of souls Russia has come very much in the eye of the public during the last two or three years. No country on the face of the globe has been so thoroughly governed by the military powers as Russia but often that power has been abused and men made to suffer for their political affiliations. It could not be called a militaristic nation because the military officers ruled with rods of iron. It was despot rule and not the variety of military rule that obtained in Germany where practically every man of the nation was a trained working unit.

Russia first jumped into the limelight through her stringent Prohibition law shortly after the beginning of the war. That act made the world sit up and take notice.

The revolution was not what one would expect of the Russians after their past performances Revolutions are not an uncommon thing in Russia but they are usually short lived and the result of the preachings of a few idealists and intellectual prophets who sought to set up an entirely different form of government without knowing exactly what they were going to do

The present revolution was the result of the Pro-German influence on Russian military affairs. The Army and the Douma, the national house of Congress, were in favor of vigorously prosecuting the war against Germany but Teutonic influences prevailed over Czar Nicholas and prevented him from taking decided and firm stands on national and international questions. News dispatches indicates that the common people of Russia are in accord with the Army and the Douma in their determination to wage a stronger warfare against Germany. This is a new departure for the people of Russia. They have been ruled tyranically by the Army power but apparently the war has resulted in their having a new vision and they are now determined to go after Germany with a vengeance.

MAKING A STUDY OF OUR WORK

When I opened my eyes one morning, last week I couldn't think just where I was for a moment or two, but finally I recalled that I was spending a few days with Ethel I twelve my Vitagraph pictures, and rooming up in her little nest

I could hear her talking to Baby Dear as she dressed him in the next room Then he went down to and in a few moments I heard But no husband, follow her

Slipping on a dressing gown I ran into her bath room for my shower everything was spick and span and although she had just finished bathing Baby there was no talcum powder scattered about the floor When I finished dressing I went downstairs in time to have breakfast with the happy little family which I love so well

Soon the little clock chimed eight, and Bud had a good bye and was soon running down the path on his way to work

"And now mother must get to work, too," laughed Ethel rising from the table Before long we had the sunny room put to rights and looking very attractive The dishes were next on the program, and somehow it didn't seem like work as we placed things in their proper places and straightened others which had been confused

Bundling herself into a large rubber coat, Ethel now took her broom and was soon sweeping her porch and steps though he really meant it Coming into the living room where Baby Dear and I were building a wonderful castle from picture blocks she asked me if I cared to go to market with her Of course that was a treat and soon a happy trio was walking toward the village, for even Baby seemed to think it a fine day for stroll

When we returned, the beds which had been airing were made and the rooms put to rights Then vegetables were prepared for the evening dinner and by that time we were ready for luncheon When this light repast was over and the dishes cleared away, Ethel ran upstairs to put Baby to bed for his nap, and we then went into the sewing room where we worked as we chatted merrily over the things so dear to our hearts

As I have told you before, Ethel makes a deep study of her work And if she can make her work a study and interesting it simply means that you and can make our work a study too If you are a stenographer you can improve yourself by studying wording and phrasing, and I can study other people's work on the screen If we do this I am sure, like Ethel, we will make those about us regret that our life if not their life Shall we start making a study of our work today?

DRINK HOT WATER IF YOU DESIRE A ROSY COMPLEXION

Says we can't help but look better and feel better after [illegible] bath.

To look one's best and feel one's best is to enjoy an inside bath each morning to flush from the system the previous day's waste, sour fermentations and poisonous toxins before it is absorbed into the blood. Just as coal, when it burns, leaves behind a certain amount of incombustible material in the form of ashes, so the food and drink taken each day leave in the alimentary organs a certain amount of indigestible material, which if not eliminated, form toxins and poisons which are then sucked into the blood through the very ducts which are intended to suck in only nourishment to sustain the body

If you want to see the glow of health bloom in your cheeks, to see your skin get clearer and clearer, you are told to drink every morning upon arising a glass of hot water with a teaspoonful of limestone phosphate in it, which is a harmless means of washing the waste material and toxin from the stomach, liver, kidneys and bowels, thus cleansing, sweetening and purifying the entire alimentary tract, before putting more food into the stomach.

Men and women with sallow skins, liver spots, pimples or pallid complexion, also those who wake up with a coated tongue, bad taste, nasty breath others who are bothered with headaches, bilious spells, acid stomach or constipation should begin this phosphated hot water drinking and are assured of very pronounced results in one or two weeks.

A quarter pound of limestone phosphate costs very little at the drug store but is sufficient to demonstrate that just as soap and hot water cleanses, purifies and freshens the skin on the outside, so hot water and limestone phosphate act on the inside organs We must always consider that internal sanitation is vastly more important than outside cleanliness, because the skin pores do not absorb impurities into the blood, while the bowel pores do.

CITY POLICEMAN GAVE EXPERIENCE

Maniac Gave Officer Lost Additional Weight and Renewed His Strength

"Yes sir, I gained five pounds during the first week I took Tanlac," said Jesse Yost, the well known city patrolman, of 5331 Addison street West Philadelphia, recently.

"I had suffered from a sour disordered stomach," continued Officer Yost, "and no matter what I took I could not get any better

"My digestion was very bad and I got so I could scarcely eat at all The gas on my stomach and headache bothered me no little

"I was also badly constipated and I felt languid and kind of tired out My old-time energy was disappearing and I could hardly pull myself through some days

"I saw Tanlac highly praised in the paper I read where Patrolman Frank Herman had been benefited I decided that I wanted to try Tanlac but before I got the medicine I talked with a doctor about it He doctor said it was all right to try it I began using Tanlac When I weighed me he was surprised to discover that I had gained five pounds in weight on the first bottle of Tanlac

My condition is now in good shape and I feel like I am rapidly gaining back the strength and vim I lost"

TURN GRAY HAIR WITH SAGE TEA

If Mixed with Sulphur It Darkens So Naturally Nobody can Tell.

The old-time mixture of sage tea and Sulphur for darkening gray, streaked and faded hair is grandmother's recipe and folks are again using it to keep their hair a good even color, which is quite sensible as we are living in an age when a youthful appearance is of the greatest advantage

Nowadays though we don't have the troublesome task of gathering the sage and the mussy mixing at home. All druggists sell the ready to use product improved by the addition of other ingredients called "Wyeth Sage and Sulphur Compound"

[illegible] about a bottle of this preparation because almost as soon as it has been applied some of the gray hair disappears

What delights the ladies with Wyeth Sage and Sulphur is [illegible] that it not only darkens gradually but after a few applications it also produces that soft lustre and appearance of abundance which is so attractive This ready to use preparation is a delightful toilet requisite for those who desire a more youthful appearance. It is not intended for the cure [illegible] tion or prevention of disease

Can you wash your walls?

You have often wished that you could remove spots and stains from your wall paper. Perhaps the paper was almost new. In that case the marks must remain an eye-sore, or you must go to the expense of re-papering.

We can save you all such annoyances. We recommend that you use

DEVOE
THE GUARANTEED
VELOUR FINISH

in place of this unsanitary wall paper. It is an oil paint that gives to walls a beautiful, soft, water-color effect. If it becomes soiled, you can wash it with soap and water.

Besides being a thoroughly sanitary finish for your walls and ceilings, Devoe Velour Finish also offers artistic possibilities that cannot be attained by wall paper. Also, it is more economical—lasts longer than wall paper.

Devoe Velour Finish is not an experiment. We guarantee every can of Devoe we sell. Our customers tell us it gives them perfect satisfaction and that it is very easy to apply.

MATCHES

The world is cursed today with the temperamental match.

Formerly a match was a big, husky sliver of wood with a head full of fire and brimstone. It was a hair trigger match. One you could strike anywhere and get results.

But matches today are different. Thin, stunted, puny little things. And so darned particular they have to be scratched on their own brand of sandpaper or they won't light. You just have to coax them all the time. And their heads fly off on the slightest provocation. They're no good.

Drat a match that has to be wheedled into doing its duty anyhow.

Liquor Again An Issue In The State of Texas

State Wide Prohibition Amendment Repeat Delightful Performance

Austin, Texas, Mar. 15.—Undaunted by the defeats of the past, the Anti-Saloon League of Texas plans to start another State-wide campaign today for prohibition. State-wide prohibition by constitutional amendment has been voted on twice in Texas, and defeated each time. The question of submission has also been voted on several times and twice ordered, only to be defeated when the issue was brought to a vote. The prohibitionists are determined to drive liquor out of Texas, which is now the largest "wet" area in the whole of the south and southwest, and promises soon to be the sole remaining state in these two sections of the country in which intoxicants may legally be sold. In spite of the sucessive defeats in the efforts to bring about state-wide prohibition by constitutional enactment, the anti-saloon forces have made steady and substantial gains in the fight against the liquor traffic, by a campaign waged along local option lines they have [illegible] the "dry" area during the past few years and have succeeded in putting the liquor traffic out of business in many counties that had [illegible] for years as immovable [illegible]

Committee for April program Mrs. Hazel Smith, Mrs John Frost and Mrs. Harry Kittleberger.

Miss May Kelley is among the number reported on the sick list.

J. D. Snoddy, of Piedmont, Md., was a recent visitor at the home of Mr. and Mrs. F. B. Bloom at Ferncliff.

Miss Isabel Smay, of Lumber City, is spending a few days in town. Her grandfather Andrew Mahaffie who has been confined to his bed for several weeks is not much improved.

Joseph T. Bunnell has purchased the John Bartell farm formerly the well known McNaul farm near Bailey road.

Ashley Lord, of Hastings, visited at the home of Mr. and Mrs. D C. Henchberger yesterday.

Mrs. F. P. Bloom is ill at her home at Ferncliff with tonsilitis.

D. C. Scott returned home last evening from Baltimore, and Philadelphia where he has been spending some time taking treatment for his eyes.

Frank Strycek has bought the property of Joseph Bumell near Bailey road.

Harry J. Leathers has had his residence all wired for electric lights.

The home talent play "Higbee of Harvard" at the opera house Wednesday evening was well attended. The play was under the direction of Fred P. Robison which assured its success. It is hoped the treasurer of the Curwensville High school Athletic association is well benefited from the proceeds of this play, as all worked hard to make it entertaining as well as a financial success.

Rev. I. P. Hawkins left Thursday evening for Mahaffey where he will spend Sunday.

Mrs. James C. Stover and Miss Lydia Walker of Grampian, who is visiting Mrs. Stover were in Clearfield between trains yesterday.

Regular preaching service in the Baptist church Sunday. Morning worship at 11 o'clock, evening at 7:00 All other services as usual. Strangers made welcome.

BOARDMAN

Mrs. Hutchinson has returned to Elmira, N. Y. after spending a few days with her brother, James Grant

The Misses Laura Dixon and Jeanette McDonald, of Maple Run, attended the serial at the Opera House in Boardman last evening.

Born, to Mr. and Mrs. William Schmires, a son.

Mr. James Grant is slowly improving from a serious illness.

The Misses Margaret French and Margaret Wilson entertained the W. A. O. club Monday evening. All reported having spent a pleasant evening. Refreshments were served.

John Palmer is seriously ill at his home on Front street.

Many friends of the boys who went to Gallitzin miss them very much.

Chester Herr and Dr. Ficus spent Wednesday in Clearfield

Mrs. John Boag, Jr. is spending a few days with her parents in Clearfield.

The Misses Helen Bloom, Violet French, Mary Williamson, Martha Burns, Margaret Wilson and Marfaret French are expected to attend the dance at Carnwath.

NEW YORK POLICE MEET SPEEDERS HALF WAY

New York, March 15.—The police of this city today inaugurated an experiment to ascertain whether citizens are willing to cooperate with the city authorities in enforcing the law. When a policeman spots a speeder, he does not arrest the offender at once unless the offense is flagrant, but sends his name and license number to headquarters.

The speeder's record is investigated and if it is found that he has committed a similar offense preciously, he is summoned before a magistrate to plead his case. If it is evident that automobilists do not appreciate this treatment, the police department after a thorough test, will abandon the system of giving speeders a chance.

AGRICULTURAL COMMISSION AT BLOOMSBURG

Bloomsburg, March 16.—The state agricultural commission is here today to hold a business session in connection with a meeting of the Columbia county farmers vocational school.

STOMACH UPSET?

Get at the Real Cause—Take Dr. Edwards' Olive Tablets

That's what thousands of stomach sufferers are doing now. Instead of taking tonics, or trying to patch up a poor digestion, they are attacking the real cause of the ailment—clogged liver and disordered bowels.

Dr. Edwards' Olive Tablets arouse the liver in a soothing, healing way. When the liver and bowels are performing their natural functions, away goes indigestion and stomach troubles.

If you have a bad taste in your mouth, sallow complexion, poor appetite, pimples, a sluggish feeling, no ambition or energy, troubled with undigested foods, you should take Olive Tablets the vegetable liver regulator.

Dr. Edwards' Olive Tablets are a purely vegetable compound mixed with olive oil, you will know them by their pleasant way of acting.

Take one or two at bedtime for a week or two, as you can eat what you like. 10c and 25c per box. All druggists.

ON THE SCREEN

"GOD'S HALF ACRE"

Special at the Globe Theatre Tomorrow

Mabel Taliaferro, the star of "God's Half Acre" a Metro wonderplay, has enjoyed a unique and successful career on both the speaking stage and the screen. She was the first legitimate star on the American stage to go into motion pictures, and was only preceded in pictures by two other stars abroad, Mme. Sarah Bernhardt and the great Coquelin Her debut in the silent drama was as the star of the three-reel feature "Cinderella" produced by the Selig company.

Miss Taliaferro began her stage career at the age of two and a half years. She appeared with Robert Hilliard and Annie Yeamans in "Blue Jeans" which was presented in every city of importance in this country. When she was fourteen years old she was William Collier's leading woman. Her next greatest success was in the charming role of Lovey Mary in "Mrs. Wiggs of the Cabbage Patch." Then came the starring role in "In the Bishop's Carriage," in which Miss Taliaferro was starred both in this country and afterward in Australia.

Miss Taliaferro became the pet of the nation in her remarkable performance as the little star in "Polly of the Circus." It was difficult for her to give up this role, as there was a continued demand to see her in it, even by those who had seen the play several times. She has not been confined to acting any one kind of role, and is exceedingly versatile.

TAFT READY FOR TOUR

New Haven, Conn., March 16.—Ex-President William Howard Taft is busy at his home here today outlining the speeches he will deliver on his "Paul Revere" ride through the south and west beginning next Wednesday to awaken the spirit of preparedness and patriotism in the people of those sections.

Dr. Taft will leave here the first of the week and go to Richmond, Va., for his first speech Wednesday night. He will speak in Greensboro, N. C., March 22; Atlanta, March 23; Birmingham, March 24; Nashville, March 25; Memphis, March 26 and in the evening at Little Rock, Ark.; Dallas, March 27; Oklahoma City, March 28 and 29. Dr. Taft will be in Chicago March 30 and back here April 1.

"With the greatest reluctance," said Dr. Taft today, "I have come to the conclusion that we need compulsory military training. We are now looking over the brink of hostilities with some of the belligerents in this war. We could not have better proof of the need of a body of trained men in this country at once."

York Mother Finds Ideal Cold Treatment For Her Little Boy

Nothing to Swallow—You Just Rub It On.

Mothers everywhere will be interested in the experience of Mrs. Chas. B. Smith, 622 West Gas Alley, York, Pa. Mrs. Smith tried the Southern remedy—Vick's VapoRub Salve, when it was first introduced in York, and writes—

"Our little four year old boy had a cough for about a week. We gave him everything we knew, and nothing seemed to do any good. So when we got Vick's VapoRub I rubbed it on his chest well for two nights and I have not heard him cough since. I think it is the best medicine I have ever had in the house."

Vick's VapoRub comes in salve form, and when applied to the body heat, the ingredients are released in vapor form. These vapors are inhaled with each breath, opening the air passages and loosening the phlegm. It's a real "Bodyguard in the home" against all forms of cold troubles. 25c, 50c, or $1.00. At all druggists.

HOT TEA BREAKS A COLD—TRY THIS

Get a small package of Hamburg Breast Tea, or as the German folks call it, "Hamburger Brust Thee," at any pharmacy. Take a tablespoonful of the tea, put a cup of boiling water upon it, pour through a sieve and drink a teacup full at any time. It is the most effective way to break a cold and cure grip, as it opens the pores, relieving congestion. Also loosens the bowels, thus breaking a cold at once.

It is inexpensive and entirely vegetable, therefore harmless.

WILSON CALLS CABINET MEETING

Abdication of Czar Is Not Completely Effective As Yet

Indications That All The People Are With Revolutionists And That Nicholas Will Not Return

MANY OFFICIALS HAVE BEEN EXECUTED

London, March 16.—Czar Nicholas' abdication of the throne of Russia has not been effected. Chancellor of the Exchequer announced in the house of commons today.

Bonar Law read a telegram from the British ambassador at Petrograd. It stated that while the Czar's abdication and the appointment of Grand Duke Michael as regent has been decided upon by the executive committee of the Duma such steps "had not as yet been effected." The message concluded that the Czar's whereabouts are unknown.

Success of Revolution Forecasted

Petrograd, March 16.—Complete success of the revolutionists in Russia was forecasted today when nobles joined with the revolutionists and sent resolutions to the officials. The populace and army will brook no objection to their control.

Baron Staffelberg fired upon the troops in the strete and his house was immediately stormed. He was taken out and excuted.

Count Frederick aid-de-camp to the Czar remained hidden in his home. He was later taken a prisoner.

Countess Klein Michael known for her pro-German activities was taken from her hiding place and made a prisoner.

General Sukaomlinoff former minister of war was arrested and immediately executed.

Krenshiz was arrested and one of the Duma leaders appealed to the populace and his life was spared. He was placed in Pauris prison where the nobles are imprisoned.

Grand Duke Nicholas will take charge of the Russian army. The people trust him and believe he will lead the Russian army in whole hearted sympathy with the entente.

The Grand Duke who was in command of the army of the Caucausus telephoned President Rogeniko of the Duma that he and Chief of Staff Alexiess advised the Czar to abdicate. Such a step would save Russia and bring the war to a successful close.

The Czar today is at Pfkoff and the Czarina is at Posrke Sel Palace according to latest reports. Neither are in danger.

Whitman's Decision In Darcy Case Dooms Boxing Game In New York

Governor Did Not Sanction the Idea of Foreigners Taking Home Good Yankee Coin

By H. C. Hamilton
(By United Press)

New York, March 16.—Any one might have had that boxing wasn't on its last legs and tottering unsteadily to its corner for the final round sacuid be thoroughly dissipated by Governor Whitman's action in New York when he refused to permit Les Darcy to appear in public bouts.

Whether it seeps into other states and knock the game clear out the ring is something else and remains for time to tell.

Whitman was severely criticised in many quarters when he took his stand against Darcy, while in other spots he was highly commended.

Critics declared he should not have shown discrimination against Darcy, pointing out that Freddie Walsh, Tom Cowler, Ted Lewis and other are allowed to box without interference. They are just as much at fault as is Darcy, for they are Englishmen, whereas Darcy is an Australian, and of Irish descent

Whitman's action seems to have been taken because Darcy had neglected his duty to come to America and get some easy money The spectacle of a foreigner coming here and separating New Yorkers from their cash because they were easy marks evidently didn't appeal to governor. The other English boxers already were in this country when war was declared.

Darcy made a frightful mistake when he refused to talk business with Mike Gibbons and promoters from the Middle West Then, when he listened to bad advice and separated himself from Tim O'Sullivan he made another bad step Each of these actions caused adverse comment and the people began to kick.

Governor Whitman's attention naturally was called to what was going on. He couldn't have helped seeing it if he read the newspapers Darcy was maligned by any means in the said about him. If Governor Whitman got the wrong impression it's his own fault.

The money grubbers among the boxers are fast choking the wind out of the goose that lays the golden eggs. It wouldn't be at all surprising if every boxing law in the country was wiped off the books within two or three years.

EXPECT OVERTHROW OF GREECE AND TURKEY RULERS

Washington, March 16.—That the Russian revolution and overthrow by the Duma of the Russian bureaucracy will be immediately folowed by strong pressure by the entente allies on Greece and possibly dethrone King Constantine of Greece is indicated in official dispatches received here from representatives of this government abroad. Reports from the same sources give hints indicating that the end of the Turkish empire is emminent and that Turkey will be deprived of any territorial holding in Europe.

BROTHERHOOD OF TRINITY CHURCH AT BANQUET

Rev. Dr. Bender Who Will Soon Leave Pastorate, Was Guest Of Honor at Function

MANY FINE ADDRESSES MADE

The Brotherhood of the Trinity Methodist Episcopal Church of Clearfield met last night in the Sunday school room of the church and partook of the delicacies prepared by the ladies of the church. The affair was by far the greatest social meeting ever undertaken by the organization and was a hughe success. Rev. Bender, who has announced his intention of leaving this pastorate was the guest of honor and many glowing tributes were paid him by the men who had places on the program. The church choir was present as guests and treated the banqueters to musical selections which were very much enjoyed

After dinner had been served Toastmaster Rev. McCurdy called the assemblage to order and in his usual witty manner introduced as the first speaker of the evening Dr. Bender the beloved leader of the Methodists of Clearfield Dr. Bender was much affected by the honor shown him and thanked his co-workers for their support of his work in Clearfield Dr. Bender was followed by Hon Frank G. Harris, Rev. Peters of the Eleventh street church, Rev. Allenbach, of the Lutheran church, Rev. Brown and William Boyce who is Past President of the Trinity Brotherhood. The remarks of Mr. Boyce was very impressive. He spoke directly to Dr. Bender and gave him all the credit for bringing to the men of the Brotherhood a new lease on life, a new vision of hope and a better, clearer understanding of the joys of a Christian life.

SPARED EXPENSE OF TRIAL

Clearfield county will be spared the expense of the trial and possible incarceration of John Lapierre, the "dope artist" who played so much havoc with a train load of Overland automobiles on a B., R. & P. freight train, between Ridgway and DuBois one day last week.

Lapierre was arrested in the yards at DuBois, but as he had boarded the train at Ridgway, Railroad Claim Agent Nathan Kohut, who has charge of such matters for the B., R. & P. company, after his usual careful investigation discovered that the act of vandalism occurred in Elk county. Mr. Kohut found tire pumps, wreiches oil cans and other automobile accessories scattered along the track almost clear across Elk county and accordingly made information against Lapierre at Ridgway and coming to Clearfield this morning took his man out of the county jail and returned to the Elk county capital with him on the 11:44 train

SUITS BROUGHT

Suit was entered in the Prothonotary's office this morning against W. J. Lanich, Frank Pepe, B. F. Postlethwait, H. Heckman and Ella Conway by the county commissioners for balance due from Mr. Lanich who had been tax collector of Huston township for several years. Lanich failed to clean up his duplicates to the satisfaction of the county commissioners and the collector and the four bondsmen named are asked to make good the shortage.

Attorneys Pentz and Pentz on behalf of the A. J. Deer Co., asked for an execution against J. A. Maloney of DuBois, the amount claimed in the paper filed being $60 balance of purchase price for a coffee grinder purchased by Maloney from the Deer company.

The Big Store Crowded On Evening Of Opening

First Spring Opening of Season Brings Out Record Crowd

Leitzinger Bros.' annual spring opening attracted the usual large crowds last evening. The mamoth store was a "bower of beauty" from roof to cellar and about all the women in town were present during the evening to visit and admire everything on display.

The Guelich's orchestra was advantageously located on the second floor and the inspiring music lent a charm to the occasion which was greatly appreciated by each fair visitor. Every floor was filled all evening with Clearfield's fairest, dressed in their best, and altogether the Big Store presented a scene which did one's heart good to look at.

After a careful inspection of the latest delights to the feminine eye, the young folks, as though by common consent, gravitated to the front of the second floor and utilized the large section of that commodious quarter as an improvised ball room and saw to it that not a single dance tune was allowed to "waste its sweetness, etc."

The Big Store did itself proud on this occasion and the display, including the handsomely dressed show windows in the language of one fair visitor was "perefctly wonderful."

THE LOCAL STRIKE SITUATION

About 100 of the strike breakers imported into the New York Central yards here two weeks ago when the car repairers walked out through a difference with the company over wages, left last night for their home About sixty of them left over the Pennsylvania, seventeen over the B. R. & P. and the balance left via New York Central.

It is said another lot of strikebreakers will arrive here this evening in charge of Joseph Schultz, who left last night for New York for the purpose of rounding up the new crew.

Everything is quiet and extremely peaceful here. There are only about thirty men at work in the yards, while about all the men who walked out have secured employment elsewhere about town and are awaiting developments.

JOHN W. SMITH SERIOUSLY ILL

John W. Smith, the miller, was taken seriously ill at his South Second street home last evening and was hurried to the Clearfield hospital for medical treatment.

Word from the hospital is to the effect that while he rallied slightly this morning his condition is extremely critical. He is suffering with kidney trouble.

Discuss Means of Handling The Situation Between Railroads And The Brotherhoods

President's Hands Are Tied So Far As Preventing Strikes Are Concerned Without Help of Congress

WILSON WILLING TO ACT AS MEDIATOR

By Robert J. Bender
(United Press Staff Correspondent)

Washington, March 16.—Facing the gravest situation in months President Wilson called his cabinet for a meeting at 2 to take a course of action in the threatened break between the railroads and their employes.

The President's hands it is admitted are tied inasmuch as being unable to take any drastic measures to avert the threatened strike.

He will make a patriotic appeal to both sides to make concessions in view of the grave international situation with the endeavor to prevent a tie-up of transportation.

He will also suggest mediation between the Brotherhood and the railroad representatives.

There is also a possibility of hastening the extra session of Congress if necessary in order to give the President power to bring government forces into play in handling the crisis.

The President, still weak from a protracted illness left his bed today for the first time in nine days.

ENCAMPMENT OF I. O. O. F. HELD BANQUET

Music Furnished By the West Side Sunday School Orchestra Led By Prof. Rockwell

SOLO BY MEDA SHAW FEATURE

The annual banquet of Encampment No. 232 I. O. O. F. held in Odd Fellows hall last evening was one of the most enjoyable occasions in the history of this admirable and progressive fraternal organization—and that is saying a great deal. When it comes down to staging affairs of this kind, Clearfield Odd Fellows run exceedingly true to name, and are "odd" in that no other organization can pull off any similar gathering with quite the degree of success and genuine enjoy- the "100 F." boys (with apologies t "[illegible]" boys (with apologies to O. O. B. Porter.)

Last night's affair was in the capable hands of a committee composed of Frank Weller, Ashley Fullington, and Donald Daugherty and they had every detail worked out to perfection; which was fully apparent in the manner in which each guest enjoyed the evening.

The members of the Encampment were accompanied by their wives and as the women prefer to do their talking in private and the men folks hadn't the nerve to attempt any get even measures, the gathering was entirely informal and no speechmaking was indulged in.

Elegant refreshments were served by the ladies of the Lutheran church, which fact relieves us of the necessity of saying anything further along this line, as all who have been fortunate enough to sit at the banquet board presided over by these good ladies realize exactly what the opening word of this paragraph means in this case.

The music for the evening was provided by the West Side M. E. Sunday school orchestra, under the direction of Prof. Charles E. Rockwell and the excellent music gained much praise A distinct and most pleasing feature of the musical program was two charming solos rendered by Miss Media Shaw, a member of the orchestra and one of Clearfield's most talented and accomplished soloists.

About 100 couples participated in the festivities and spent the evening in card playing and other games and amusements, and all present were loud in their praises of the good work of the committee in charge.

7-YEAR OLD BOY KILLED BY TREE FALL

While aiding his thirteen year old brother in cutting down a tree, Thomas Michael Sufler seven years old son of Edward Cupfler, of near Rockton was killed when the tree fell and struck him. The tree fell in the the opposite direction in which is was expected to fall. The accident happened Wednesday afternoon at 2 o'clock

CONDITION VERY CRITICAL

The condition of Benjamin Sykes, Supt. of the Clearfield tannery, who suffered a stroke of paralysis Wednesday morning, followed by a second one yesterday, remains extremely critical. His family has been summoned and are at his bed side and his death is momentarily expected.

James Newpher died at the Clearfield hospital Wednesday night. Funeral services held in Mt. Zion church, near Ol[illegible] Saturday afternoon.

IN MEMORY OF "OLD HICKORY"

Washington, D. C., March 15.—The high reverence in which the memory of Andrew Jackson is held is to be given expression throughout the country today by exercises commemorating the 150th anniversary of the birth of the famous old soldier and President. Many organizations of Democrats who look upon "Old Hickory" as their "patron saint," have arranged meetings and banquets in honor of the anniversary. Suitable commemoration of the day is also expected to take place in many of the cities and towns named in honor of the victor of New Orleans.

POULTRY DEALERS PASS THE BUCK

Des Moines, Ia., March 16.—"Not guilty" plead the poultry dealers to the allegation that they are responsible for the unduly high cost of the Sunday dinner. Someone else is reaping the biggest share of the profits from the present high prices. So say the members of the Iowa Poultry Dealers' association assembled here today in annual convention. And anyway, add the dealers, the price of poultry is no higher in comparison with the cost of other articles of food. And there you are!

Pennsylvania Farmers Excelled In Every Crop But Potatoes

Pennsylvania Easily Outshines its Rivals in the Production of Buckwheat

In every major farm crop, excepting potatoes, the Pennsylvania farmers excelled the general average field to the acre obtained by the farmers of this country.

The United States figures of crop production show that the average yield of potatoes to the acre for 1916 was 80.4 bushels while the average shown by the figures of the Pennsylvania Department of Agriculture show an average yield in this state of but 70 bushels to an acre. The average last year was low for Pennsylvania but the average for the entire country was also reduced from 96.3 bushels to an acre in 1915.

Pennsylvania ranked third in the total production of potatoes and the 265,200 acres harvested represented 7.47 per cent of the total acreage of 3,500,000 devoted to potatoes. The yield represented 6.5 per cent. of the entire yield of the country.

It is in the raising of buckwheat that the Keystone state can shine. Although the year was a poor one for the buckwheat crop, Pennsylvania easily retained its place as first among the buckwheat growing states The 279,970 acres devoted to buckwheat represent 33.13 per cent. of the 845,000 acres planted to buckwheat in this country and yield represented 37.84 per cent. of the entire crop of the country. The average yield for an acre in the state was 16 bushels compared to 14 bushels for the entire country.

The Pennsylvania average of wheat to an acre was 16.8 bushels against a general average of 13.8 bushels The acreage of the state was 3.82 per cent of the total acreage of the country but the yield represented 5.20 per cent. of the total yield for this country, thus showing that over one twentieth of the wheat grown in the United States comes from Pennsylvania.

Pennsylvania farmers averaged 37 bushels to an acre for corn against the national yield of 24.4 bushels and the acreage devoted to corn in the state was 1.38 per cent of the total acreage. The total yield of the state represented 2.09 per cent. of the country's crop.

Almost ten per cent. of the rye grown in the United States comes from Pennsylvania and is raised on an average representing 9 per cent. of the total acreage The yield for the state per acre is 16.9 bushels as compared with the national average yield of 15.3 bushels to an acre.

The oats figures show that Pennsylvania devotes 2.53 per cent of the total acreage and that the crop represents 2.60 per cent. of the total crop. The state average yield per acre is 31 bushels to an acre against a yield of 30.1 bushels for the country.

The acreage for hay is 5.81 per cent. of the total and the yield is 5.83 per cent of the total yeild of the United States The state average yield is just a slight fraction above the country's average yield of 1.64 tons to an acre.

SIMILARITY

The Pro-German influence in Russia bears some semblance to the condition of affairs in our own nation. Our President has had advisors that were of the same stripe as those who brought about the revolution in Russia. Bryan with his peace propoganda and Ford with his silly preachings were forces that hindered for some time the business of preparing to meet what we have found to be the inevitable. Other advisors of the President have without a doubt been Pro-German in sympathy and done everything in their power to prevent a break with the Teutons. Had the President kept Bryan in his cabinet there is no doubt but that the people of the United States would have demanded action instead of peace pleas.

A GOOD RECORD

The State tabulation for Clearfield county shows that fourteen fires burned within the county forests between April 22 and December 8th. About 3,500 acres of forest land were burned over.

The State says the largest single fire burned over 3,000 acres in Lawrence township December 7th and 8th. Had it not been for this one large fire, the area burned over would have been less than 500 acres, a record not approached by any other county in the state with a forest area equally large To make it worse, the 3,000 acre fire was started by hunters, who, of all frequenters of the woods, should know better.

Clearfield county's local foresters, rangers and fire wardens evidently did their duty, for eleven of the fourteen fires were extinguished before they had covered twenty-five acres.

RUSSIA

From a slumbering nation of millions of souls Russia has come very much in the eye of the public during the last two or three years. No country on the face of the globe has been so thoroughly governed by the military powers as Russia but often that power has been abused and men made to suffer for their political affiliations. It could not be called a militaristic nation because the military officers ruled with rods of iron. It was despot rule and not the variety of military rule that obtained in Germany where practically every man of the nation was a trained working unit.

Russia first jumped into the limelight through her stringent Prohibition law shortly after the beginning of the war. That act made the world sit up and take notice.

The revolution was not what one would expect of the Russians after their past performances Revolutions are not an uncommon thing in Russia but they are usually short lived and the result of the preachings of a few idealists and intellectual prophets who sought to set up an entirely different form of government without knowing exactly what they were going to do

The present revolution was the result of the Pro-German influence on Russian military affairs. The Army and the Douma, the national house of Congress, were in favor of vigorously prosecuting the war against Germany but Teutonic influences prevailed over Czar Nicholas and prevented him from taking decided and firm stands on national and international questions. News dispatches indicates that the common people of Russia are in accord with the Army and the Douma in their determination to wage a stronger warfare against Germany. This is a new departure for the people of Russia. They have been ruled tyranically by the Army power but apparently the war has resulted in their having a new vision and they are now determined to go after Germany with a vengeance.

MAKING A STUDY OF OUR WORK

When I opened my eyes one morning, last week I couldn't think just where I was for a moment or two, but finally I recalled that I was spending a few days with Ethel I twelve my Vitagraph pictures, and rooming up in her little nest

I could hear her talking to Baby Dear as she dressed him in the next room Then he went down to and in a few moments I heard But no husband, follow her

Slipping on a dressing gown I ran into her bath room for my shower everything was spick and span and although she had just finished bathing Baby there was no talcum powder scattered about the floor When I finished dressing I went downstairs in time to have breakfast with the happy little family which I love so well

Soon the little clock chimed eight, and Bud had a good bye and was soon running down the path on his way to work

"And now mother must get to work, too," laughed Ethel rising from the table Before long we had the sunny room put to rights and looking very attractive The dishes were next on the program, and somehow it didn't seem like work as we placed things in their proper places and straightened others which had been confused

Bundling herself into a large rubber coat, Ethel now took her broom and was soon sweeping her porch and steps though he really meant it Coming into the living room where Baby Dear and I were building a wonderful castle from picture blocks she asked me if I cared to go to market with her Of course that was a treat and soon a happy trio was walking toward the village, for even Baby seemed to think it a fine day for stroll

When we returned, the beds which had been airing were made and the rooms put to rights Then vegetables were prepared for the evening dinner and by that time we were ready for luncheon When this light repast was over and the dishes cleared away, Ethel ran up stairs to put Baby to bed for his nap, and we then went into the sewing room where we worked as we chatted merrily over the things so dear to our hearts

As I have told you before, Ethel makes a deep study of her work And if she can make her work a study and interesting it simply means that you and can make our work a study too If you are a stenographer you can improve yourself by studying wording and phrasing, and I can study other people's work on the screen If we do this I am sure, like Ethel, we will make those about us regret that our life if not their life Shall we start making a study of our work today?

DRINK HOT WATER IF YOU DESIRE A ROSY COMPLEXION

Says we can't help but look better and feel better after at [illegible] bath.

To look one's best and feel one's best is to enjoy an inside bath each morning to flush from the system the previous day's waste, sour fermentations and poisonous toxins before it is absorbed into the blood. Just as coal, when it burns, leaves behind a certain amount of incombustible material in the form of ashes, so the food and drink taken each day leave in the alimentary organs a certain amount of indigestible material, which if not eliminated, form toxins and poisons which are then sucked into the blood through the very ducts which are intended to suck in only nourishment to sustain the body

If you want to see the glow of health bloom in your cheeks, to see your skin get clearer and clearer, you are told to drink every morning upon arising a glass of hot water with a teaspoonful of limestone phosphate in it, which is a harmless means of washing the waste material and toxin from the stomach, liver, kidneys and bowels, thus cleansing, sweetening and purifying the entire alimentary tract, before putting more food into the stomach.

Men and women with sallow skins, liver spots, pimples or pallid complexion, also those who wake up with a coated tongue, bad taste, nasty breath others who are bothered with headaches, bilious spells, acid stomach or constipation should begin this phosphated hot water drinking and are assured of very pronounced results in one or two weeks.

A quarter pound of limestone phosphate costs very little at the drug store but is sufficient to demonstrate that just as soap and hot water cleanses, purifies and freshens the skin on the outside, so hot water and limestone phosphate act on the inside organs We must always consider that internal sanitation is vastly more important than outside cleanliness, because the skin pores do not absorb impurities into the blood, while the bowel pores do.

MY TIRED FEET ACHED FOR "TIZ"

Let your swollen, aching feet spread out in a bath of "Tiz."

Just take your shoes off and then put those weary, shoe-crinkled aching [illegible] corn-pestered, bunion-tortured feet of yours in a "Tiz" bath. Your toes will wriggle with joy, they'll look up at you and almost talk and then they'll take another dive in that "Tiz" bath.

When your feet feel like lumps of lead—all tired out—just try "Tiz." It's grand—it's glorious Your feet will dance with joy; also you will find all pain gone from corns, callouses and bunions

There's nothing like "Tiz." It's the remedy that drives out all poisonous exudations which puff up your feet and cause foot torture.

Get a 25-cent box of "Tiz" at any drug or department store—don't wait but be glad your feet get; how comfortable your shoes feel. You can wear shoes a size smaller if you desire

CITY POLICEMAN GAVE EXPERIENCE

Maniac Gave Officer Lost Additional Weight and Renewed His Strength

"Yes sir, I gained five pounds during the first week I took Tanlac," said Jesse Yost, the well known city patrolman, of 5331 Addison street West Philadelphia, recently.

"I had suffered from a sour disordered stomach," continued Officer Yost, "and no matter what I took I could not get any better

"My digestion was very bad and I got so I could scarcely eat at all The gas on my stomach and headache bothered me no little

"I was also badly constipated and I felt languid and kind of tired out My old-time energy was disappearing and I could hardly pull myself through some days

"I saw Tanlac highly praised in the paper I read where Patrolman Frank Herman had been benefited I decided that I wanted to try Tanlac but before I got the medicine I talked with a doctor about it He doctor said it was all right to try it I began using Tanlac When I weighed me he was surprised to discover that I had gained five pounds in weight on the first bottle of Tanlac

My condition is now in good shape and I feel that I am rapidly gaining back the weight and vim I lost"

TURN GRAY HAIR WITH SAGE TEA

If Mixed with Sulphur It Darkens So Naturally Nobody can Tell.

The old-time mixture of sage tea and Sulphur for darkening gray streaked and faded hair is grandmother's recipe and folks are again using it to keep their hair a good even color, which is quite sensible as we are living in an age when a youthful appearance is of the greatest advantage

Nowadays though we don't have the troublesome task of gathering the sage and the mussy mixing at home. All drug stores sell the ready to use product improved by the addition of other ingredient called "Wyeth Sage and Sulphur Compound"

You just dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time By morning the gray hair disappears

What delights the ladies with Wyeth Sage and Sulphur is, that in addition to restoring beautifully darkening the hair after a few applications it also produces that soft lustre and appearance of abundance which is so attractive This ready to use preparation is a toilet requisite for those who desire a more youthful appearance. It is not intended for the cure, [illegible] tion or prevention of disease

Can you wash your walls?

You have often wished that you could remove spots and stains from your wall paper. Perhaps the paper was almost new. In that case the marks must remain an eye-sore, or you must go to the expense of re-papering.

We can save you all such annoyances. We recommend that you use

DEVOE
THE GUARANTEED
VELOUR FINISH

in place of this unsanitary wall paper. It is an oil paint that gives to walls a beautiful, soft, water-color effect. If it becomes soiled, you can wash it with soap and water.

Besides being a thoroughly sanitary finish for your walls and ceilings, Devoe Velour Finish also offers artistic possibilities that cannot be attained by wall paper. Also, it is more economical—lasts longer than wall paper.

Devoe Velour Finish is not an experiment. We guarantee every can of Devoe we sell. Our customers tell us it gives them perfect satisfaction and that it is very easy to apply.

MATCHES

The world is cursed today with the temperamental match.

Formerly a match was a big, husky sliver of wood with a head full of fire and brimstone. It was a hair trigger match. One you could strike anywhere and get results.

But matches today are different. Thin, stunted, puny little things. And so darned particular they have to be scratched on their own brand of sandpaper or they won't light. You just have to coax them all the time. And their heads fly off on the slightest provocation. They're no good.

Drat a match that has to be wheedled into doing its duty anyhow.

Liquor Again An Issue In The State of Texas

State Wide Prohibition Amendment Repeat Delightful Performance

Austin, Texas, Mar. 15.—Undaunted by the defeats of the past, the Anti-Saloon League of Texas plans to start another State-wide campaign today for prohibition. State-wide prohibition by constitutional amendment has been voted on twice in Texas, and defeated each time. The question of submission has also been voted on several times and twice ordered, only to be defeated when the issue was brought to a vote. The prohibitionists are determined to drive liquor out of Texas, which is now the largest "wet" area in the whole of the south and southwest, and promises soon to be the sole remaining state in these two sections of the country in which intoxicants may legally be sold. In spite of the sucessive defeats in the efforts to bring about state-wide prohibition by constitutional enactment, the anti-saloon forces have made steady and substantial gains in the fight against the liquor traffic, by a campaign waged along local option lines they have [illegible] in the "dry" area during the past few years and have succeeded in putting the liquor traffic out of business in many counties that had [illegible] for as immediate [illegible]

Committee for April program Mrs. Hazel Smith, Mrs John Frost and Mrs. Harry Kittleberger.

Miss May Kelley is among the number reported on the sick list.

J. D. Snoddy, of Piedmont, Md., was a recent visitor at the home of Mr. and Mrs. F. B. Bloom at Ferncliff.

Miss Isabel Smay, of Lumber City, is spending a few days in town. Her grandfather Andrew Mahaffie who has been confined to his bed for several weeks is not much improved.

Joseph T. Bunnell has purchased the John Bartell farm formerly the well known McNaul farm near Bailey road.

Ashley Lord, of Hastings, visited at the home of Mr. and Mrs. D C. Henchberger yesterday.

Mrs. F. P. Bloom is ill at her home at Ferncliff with tonsilitis.

D. C. Scott returned home last evening from Baltimore, and Philadelphia where he has been spending some time taking treatment for his eyes.

Frank Strycek has bought the property of Joseph Bumell near Bailey road.

Harry J. Leathers has had his residence all wired for electric lights.

The home talent play "Higbee of Harvard" at the opera house Wednesday evening was well attended. The play was under the direction of Fred P. Robison which assured its success. It is hoped the treasurer of the Curwensville High school Athletic association is well benefited from the proceeds of this play, as all worked hard to make it entertaining as well as a financial success.

Rev. I. P. Hawkins left Thursday evening for Mahaffey where he will spend Sunday.

Mrs. James C. Stover and Miss Lydia Walker of Grampian, who is visiting Mrs. Stover were in Clearfield between trains yesterday.

Regular preaching service in the Baptist church Sunday. Morning worship at 11 o'clock, evening at 7:00 All other services as usual. Strangers made welcome.

BOARDMAN

Mrs. Hutchinson has returned to Elmira, N. Y. after spending a few days with her brother, James Grant

The Misses Laura Dixon and Jeanette McDonald, of Maple Run, attended the serial at the Opera House in Boardman last evening.

Born, to Mr. and Mrs. William Schmires, a son.

Mr. James Grant is slowly improving from a serious illness.

The Misses Margaret French and Margaret Wilson entertained the W. A. O. club Monday evening. All reported having spent a pleasant evening. Refreshments were served.

John Palmer is seriously ill at his home on Front street.

Many friends of the boys who went to Gallitzin miss them very much.

Chester Herr and Dr. Ficus spent Wednesday in Clearfield

Mrs. John Boag, Jr. is spending a few days with her parents in Clearfield.

The Misses Helen Bloom, Violet French, Mary Williamson, Martha Burns, Margaret Wilson and Marfaret French are expected to attend the dance at Carnwath.

NEW YORK POLICE MEET SPEEDERS HALF WAY

New York, March 15.—The police of this city today inaugurated an experiment to ascertain whether citizens are willing to cooperate with the city authorities in enforcing the law. When a policeman spots a speeder, he does not arrest the offender at once unless the offense is flagrant, but sends his name and license number to headquarters.

The speeder's record is investigated and if it is found that he has committed a similar offense preciously, he is summoned before a magistrate to plead his case. If it is evident that automobilists do not appreciate this treatment, the police department after a thorough test, will abandon the system of giving speeders a chance.

AGRICULTURAL COMMISSION AT BLOOMSBURG

Bloomsburg, March 16.—The state agricultural commission is here today to hold a business session in connection with a meeting of the Columbia county farmers vocational school.

STOMACH UPSET?

Get at the Real Cause—Take Dr. Edwards' Olive Tablets

That's what thousands of stomach sufferers are doing now. Instead of taking tonics, or trying to patch up a poor digestion, they are attacking the real cause of the ailment—clogged liver and disordered bowels.

Dr. Edwards' Olive Tablets arouse the liver in a soothing, healing way. When the liver and bowels are performing their natural functions, away goes indigestion and stomach troubles.

If you have a bad taste in your mouth, sallow complexion, poor appetite, pimples, a sluggish feeling, no ambition or energy, troubled with undigested foods, you should take Olive Tablets the vegetable liver regulator.

Dr. Edwards' Olive Tablets are a purely vegetable compound mixed with olive oil, you will recognize them by their olive color.

Take one or two at bedtime for a week's use, so you can eat what you like. 10c and 25c per box. All druggists.

ON THE SCREEN

"GOD'S HALF ACRE"

Special at the Globe Theatre Tomorrow

Mabel Taliaferro, the star of "God's Half Acre" a Metro wonderplay, has enjoyed a unique and successful career on both the speaking stage and the screen. She was the first legitimate star on the American stage to go into motion pictures, and was only preceded in pictures by two other stars abroad, Mme. Sarah Bernhardt and the great Coquelin. Her debut in the silent drama was as the star of the three-reel feature "Cinderella" produced by the Selig company.

Miss Taliaferro began her stage career at the age of two and a half years. She appeared with Robert Hilliard and Annie Yeamans in "Blue Jeans" which was presented in every city of importance in this country. When she was fourteen years old she was William Collier's leading woman. Her next greatest success was in the charming role of Lovey Mary in "Mrs. Wiggs of the Cabbage Patch." Then came the starring role in "In the Bishop's Carriage," in which Miss Taliaferro was starred both in this country and afterward in Australia.

Miss Taliaferro became the pet of the nation in her remarkable performance as the little star in "Polly of the Circus." It was difficult for her to give up this role, as there was a continued demand to see her in it, even by those who had seen the play several times. She has not been confined to acting any one kind of role, and is exceedingly versatile.

TAFT READY FOR TOUR

New Haven, Conn., March 16.—Ex-President William Howard Taft is busy at his home here today outlining the speeches he will deliver on his "Paul Revere" ride through the south and west beginning next Wednesday to awaken the spirit of preparedness and patriotism in the people of those sections.

Dr. Taft will leave here the first of the week and go to Richmond, Va., for his first speech Wednesday night. He will speak in Greensboro, N. C., March 22; Atlanta, March 23; Birmingham, March 24; Nashville, March 25; Memphis, March 26 and in the evening at Little Rock, Ark.; Dallas, March 27; Oklahoma City, March 28 and 29. Dr. Taft will be in Chicago March 30 and back here April 1.

"With the greatest reluctance," said Dr. Taft today, "I have come to the conclusion that we need compulsory military training. We are now looking over the brink of hostilities with some of the belligerents in this war. We could not have better proof of the need of a body of trained men in this country at once."

York Mother Finds Ideal Cold Treatment For Her Little Boy

Nothing to Swallow—You Just Rub It On.

Mothers everywhere will be interested in the experience of Mrs. Chas. B. Smith, 622 West Gas Alley, York, Pa. Mrs. Smith tried the Southern remedy—Vick's VapoRub Salve, when it was first introduced in York, and writes—

"Our little four year old boy had a cough for about a week. We gave him everything we knew, and nothing seemed to do any good. So when we got Vick's VapoRub I rubbed it on his chest well for two nights and I have not heard him cough since. I think it is the best medicine I have ever had in the house."

Vick's VapoRub comes in salve form, and when applied to the body heat, the ingredients are released in vapor form. These vapors are inhaled with each breath, opening the air passages and loosening the phlegm. It's a real "Bodyguard in the home" against all forms of cold troubles. 25c, 50c or $1.00. At all druggists.

HOT TEA BREAKS A COLD—TRY THIS

Get a small package of Hamburg Breast Tea, or as the German folks call it, "Hamburger Brust Thee," at any pharmacy. Take a tablespoonful of the tea, put a cup of boiling water upon it, pour through a sieve and drink a teacup full at any time. It is the most effective way to break a cold and cure grip, as it opens the pores, relieving congestion. Also loosens the bowels, thus breaking a cold at once.

It is inexpensive and entirely vegetable, therefore harmless.
